Continuation of Substance of Interview including description of the general nature of what was discussed:

With respect to claim 1, a). inserting "irradiated" before "CD4+" to distinquish the invention from the prior art; b). inserting "culture-expanded" before "therapeutic" to provide antecedent basis for "said culture expanded Treg cells"; c). deleting the phrase "with enhanced suppressor activity" to overcome 112, 2nd paragraph issue, the argument for 112, 1st paragraph was persuasive.

Claims 5, 11, 28 need further clarification. The applicant's representative agreed to cancel claim 28, and to amend claims 1, 5, 11 as proposed by an examiner's amendment..
